

## ALI BIGGS KARATE TESTIMONIAL

Hi Julius

I wanted to thank you in person, but I think all 30 kids and their parents also wanted to thank you tonight (and so they should).

Firstly I would like to say what an amazing night you produced for the children and parents and it was clear (and I think I speak for everyone) how much effort was put into the event.

As part of my job, I run parties day in and day out for children and I know how important that is. What you did tonight for the kids brought tears to my eyes and it is clear to me the love and respect all those children have for you and you have for them (They truly are your family).

I would just like to say a massive thank you for the time and dedication to my child and making him achieve and believe in himself. It takes a very sincere person to take time and dedicate it to someone else's child and make them achieve what they all achieved tonight.

What I saw in my child tonight shocked me. I know that Alfie looks up to you (ooh ...he loves Ian too) As a parent, I want a few things for my children. To be polite, have manners, be respectful and kind to all. With my guidance he will strive for that, with your teaching he will achieve that.

Julius , not only does my son look up to you, but Lee and I look up to you too. You in our eyes should be a mentor for all children and parents.
